National Association of Home Builders of the U.S. to exhibit at BATIMAT

November 6, 2017 – Villapinte, France--The National Association of Home Builders of the United States (NAHB), announced that it is exhibiting its NAHB International Builders' Show® (IBS) at BATIMAT, one of the building industry's largest international tradeshows, being held at the Parc des Expositions in Villapinte, France from November 6-10, 2017.

NAHB is a federation of more than 700 state and local associations, and represents more than 140,000 members in the U.S. and abroad. About one-third of its members are home builders and remodelers, and the rest work in closely related specialties such as sales and marketing, housing finance, and manufacturing and supplying building materials. Each year, NAHB's members construct about 80 percent of the new homes built in the United States, both single-family and multifamily.

NAHB is the owner and operator of the [International Builders' Show](#), the largest annual residential and light construction trade show in the world, every year attracting over 60,000 professionals from the United States and 100 other countries. In 2018, IBS will be in Orlando, Florida (USA) celebrating its 74th consecutive year and will have more than 1,400 exhibits and 140+ education sessions covering all aspects of the home building industry. Highlights of the 2018 show include:

- Tours of [The New American Home](#) and [The New American Remodel](#)
- Product demonstrations at the [High Performance Building Zone](#)
- [IBS Closing Concert](#) featuring Rock and Roll Hall of Fame band, Chicago
- Networking at one of six [Centrals](#), as well as at the many [award ceremonies](#) being held at IBS

Industry executives are invited to stop by the NAHB booth (H6, D13) to find out more about the show, NAHB Global membership and to register to win a full registration to either the 2018 (Orlando, Florida) or 2019 (Las Vegas, Nevada) shows, as well as a hotel stay for four nights at one of NAHB's official show hotels.
